1. Viewing of Data/Values

a) Runways with obstacle:

- i. Direct your view to the top left pane of the page titled Runway w/Obstacle.

▼ Runways w/Obstacle				
Runway	Obstacle name	Height	Threshold R	Threshold L
09R/2...	SCENARIO-1	12	3646	-50

- ii. Here you can see values of the runways with obstacles.
- iii. You can sort the values in order of descending/ascending simply by interacting with the small triangle next to the title of the table.

Runway	Obstacle n... ▼	Height	Threshold R	Threshold L
09R/2...	SCENARIO-1	12	3646	-50

b) Preset Obstacles:

- iv. Navigate yourself to the bottom left pane of the page that is titled "Preset Obstacles" above the logout and refresh buttons.

▼ Preset Obstacles			
Name	Height	Length	Width
SCENARIO-1	12	10	15
SCENARIO-2	25	13	18
SCENARIO-3	15	6	10
SCENARIO-4	20	25	17

- v. Here you can view the values/data of all the pre-set Obstacles that are already logged previously in the system.
- vi. You can also sort the values in order of descending/ascending simply by interacting with the small triangle next to the title of the table.

▼ Preset Obstacles

Name	Height ▲	Length	Width
SCENARIO-1	12	10	15
SCENARIO-3	15	6	10
SCENARIO-4	20	25	17
SCENARIO-2	25	13	18

2. Runway

a) Selecting Runway:

- i. Navigate yourself to the top left pane of the page labelled “Runway”.
- ii. Here you can select the desired runway simply by selecting from a list in a drop down box.

Add Reset

- iv. Here you can add the values of the obstacle you wish to add to the system as well as its systems.
- v. Once you have added the values and click on the “Add” button it will add the new obstacle to the list of preset obstacles and you’ll be able to see it on the Preset Obstacle section of the page.
- vi. Then you will have to go to the Preset Obstacle section to add the obstacle onto the runway visualization.

b) Deleting Obstacles from Runways with Obstacle table

- vii. Navigate yourself to table labelled “Runways with Obstacles”

▼ Runways w/Obstacle

Runway	Obstacle name	Height	Threshold R	Threshold L
09R/27L	aplesbottom	12	3353	0

Delete Selected Obstacle

- viii. Click on the runway with the obstacle you wish to remove

- ix. Once row selected is highlighted click on “Delete Selected Obstacle” button

- c) Selecting a preset Obstacle to add to the runway visualization:
 - i. Navigate yourself to the bottom right pane of the page where its titled “Obstacle”.
 - ii. Then you will be able to see two menu options.
 - iii. Select “Preset Obstacle” and it will change to its respective page.

The screenshot shows the 'Obstacle' configuration panel. At the top, there's a dropdown menu set to 'SCENARIO-2'. Below it, the 'Preset Obstacle' tab is selected. The panel displays the following values: Name (SCENARIO-2), Height (25 m), Length (13 m), Width (18 m). Under the 'Distances' section, there are three sliders for Threshold R, Threshold L, and Centerline, all set to 0 m. A 'Direction' dropdown is set to 'Select Direction'. At the bottom, there are 'Add' and 'Reset' buttons.

- iv. Here you can select the obstacle you wish to add on the runway by interacting with the drop down box next to the “Name” text.

This screenshot shows the 'Obstacle' configuration panel with the 'Name' dropdown menu open. The dropdown menu lists five options: SCENARIO-1, SCENARIO-2 (which is highlighted in blue), SCENARIO-3, and SCENARIO-4. The other fields (Height, Length, Width) and the 'Distances' section are partially visible but not fully shown.

- v. Once you have selected the obstacle, you can then add the values for distances and select its direction.
- vi. After filling in all the values you can click on the “Add” button and it will be added to the runway visualization.

d) Editing preset obstacle values

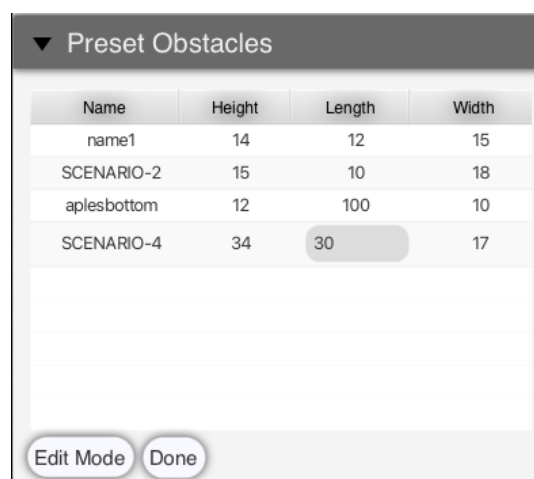

- i. Navigate yourself to the table labelled “Preset Obstacles”

Name	Height	Length	Width
name1	14	12	15
SCENARIO-2	15	10	18
aplesbottom	12	100	10
SCENARIO-4	34	30	17

Edit

- ii. Click on “Edit” Button
- iii. Once u are in “Edit Mode”, you are able to edit the values of the obstacles
- iv. When completed click on “Done” button to exit Edit Mode

Name	Height	Length	Width
name1	14	12	15
SCENARIO-2	15	10	18
aplesbottom	12	100	10
SCENARIO-4	34	30	17

Edit Mode Done

4. Main Visualization

a) Side View:

- v. Navigate yourself to the top of the middle pane on the page.

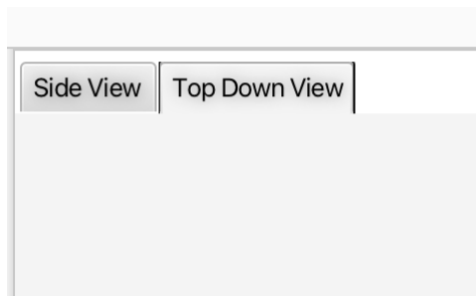

- vi. Select "Side View".
- vii. Here you are able to see the selected runway as well as the direction it is facing from a side view.
- viii. You can also change the view by clicking the "View Right" button at the bottom of the pane.

b) Top Down View:

- i. Navigate yourself to the top of the middle pane on the page.

- ii. Select “Top Down View”.
- iii. Now you are able to see the selected runway as well as the direction it is facing from a top down view.
- iv. You can also change the view by clicking the “View Right” button at the bottom of the pane.
